

# FITNESS TO TRANSPORT

OBJECTIVE: To ensure suitability for an animal to be culled and transported to market.

**CALF CARE &  
QUALITY  
ASSURANCE**

Additional Objectives:

Fitness to Transport	
How are family and non-family employees trained to identify animals fit to transport?	
Who is authorized to make the decision to transport for culling or other purposes?	
What type of transportation is utilized to transport?	
How are reasons for culling recorded?	

Antibiotic Stewardship	
Who are the family and non-family employees trained to ensure that withdrawal times have been met or exceeded before animals are marketed?	
Where are treatment records with withdrawal times for treatments recorded?	
Does the treatment record include: <ul style="list-style-type: none"><li>• Treatment date</li><li>• Animal identification</li><li>• Dosage</li><li>• Route of administration and expected duration</li><li>• Withdrawal time for milk and meat</li><li>• Individual who administered the drug</li><li>• Drug used</li><li>• Duration of therapy</li></ul>	
How are animals that have a milk or meat withhold clearly identified to reduce the chance of violation and protect food safety?	
Additional Protocols Specifications:
